The text 'SAVOURY MUFFINS' is in a black box at the top, 'BAKED' is in large bold letters, and 'bites' is in a cursive font below it. DOUGH THAT WILL
MAKE YOU SAY WHOA!

WOW
edible
cookie dough

The dessert trend: cookie dough

This is the latest trend to have blown in from New York, which has numerous bars serving cookie dough only. This sweet biscuit dough has already gained a firm foothold in the Netherlands too. It is particularly popular among children and young people.

De Maro has responded to the trend by launching a product called WOW cookie dough. It is available in no fewer than six flavours. It is eaten cold, from either a tub or a cone.

Moreover, toppings can be added to make your treat even tastier. Available in a handy 95g tub, which is convenient for direct consumption. We also have 1kg gastronomy standard tubs, from which the cookie dough can be readily scooped in restaurants and ice cream parlours.
